What is a Seasonal Tourist Business?

A seasonal tourist business is a restaurant, roofed accommodation or camping establishment that is closed at least four months in the taxation year.

Is my business eligible for the Seasonal Tourist Business Designation?

To be eligible for the reduced commercial tax rate, property owners must apply every year and demonstrate that the seasonally operated tourist business meets all the following criteria:

1. It is open during some part of the taxation year but closed for at least four months in the same taxation year (Note: the taxation year is from April 1st to March 31st).
2. It is occupied or used for the sole purpose of:
 - a. A restaurant (not including any part of the premises licensed under the *Liquor Control Act* as a cabaret, tavern, beverage room or lounge) *;
 - b. A roofed accommodation licensed under the *Tourist Accommodation Registration Act* (not including any part of the premises licensed under the *Liquor Control Act* as a cabaret, tavern, beverage room or lounge) *;
 - c. A camping establishment, as defined in the *Assessment Act* (not including any part of the premises licensed under the *Liquor Control Act* as a cabaret, tavern, beverage room or lounge).

**Example: if a business is operated as a restaurant during the day and converts to a lounge or nightclub at any time, it is not eligible.*

3. It is operated by the assessed property owner or their father, mother, brother, sister, son, daughter, grandson, granddaughter, or spouse.
4. It is managed and at least 50% owned by the assessed property owner, or their relative, as listed above. In the case of a corporation, at least 50% of the voting shares must be held by the property owner or their relative, as listed above.

If the property on which you operate your seasonal tourist business contains more than one business, the property shall be identified by the kind of business that is the property's main business. The property will not be identified as containing a seasonal tourist business unless the main business is a seasonal tourist business and all the businesses on the premises are closed for at least four months in the taxation year.
